

Kunxiaoja (Tammy) Yuan

Department of Earth and Atmospheric Sciences, University of Houston
Science and Research Bldg. 1, Houston, Texas, 77004
(+1)510-334-9800, kyuan@central.uh.edu

PROFESSIONAL EXPERIENCES	University of Houston, Assistant Professor	2025.9-present
	Lawrence Berkeley National Lab, Affiliate researcher	2025.9-present; 2018-2021
	Lawrence Berkeley National Lab, Postdoc	2022.1-2025.8
	University of Wisconsin-Madison, Visiting scholar	2021.10-2022.1
	Google X, AI Researcher (Intern)	2019.10-2020.2

EDUCATION	Wuhan University	2021
	Ph.D. in Geographic Information Sciences	
	Thesis title: <i>Analyzing and Modeling the Spatiotemporal Processes of Wetland Methane Emissions based on Causality</i> . (Co-supervised by Qing Zhu and William J. Riley at Lawrence Berkeley National Lab)	
	Wuhan University	2016
	B.Eng. in Remote Sensing	

RESEARCH INTEREST	land-atmosphere interactions; coastal resiliency; wildfire prediction; interpretable AI; causal inference; remote sensing; Earth system modeling
----------------------	--

HONORS & SCHOLARSHIPS

- Lawrence Berkeley National Lab Recognition of Excellence Award (1,500\$), 2024
- Province-Level Outstanding Undergraduate Thesis (top 2%), 2016
- University-Level Outstanding Undergraduate (top 2%), 2016
- Third prize, nationwide Super-Map GIS development competition (top 2%), 2016
- Second Prize, Mathematical Modeling Competition in Central China. (top 3%), 2015
- Excellent student leader, and merit student at Wuhan University, 2013-2015
- Yongling Chen Science and technology Innovation scholarship, 2015
- Outstanding student leader, Wuhan University, 2015
- Wuhan University Scholarship, 2013-2016

TEACHING	Guest lecture, <i>University of Wisconsin-Madison</i>	2024
	ECOL711 Multivariate Analysis of Ecological and Community Data How Causal Inference Advances Scientific Discovery in Earth System Science	
	Guest lecture, <i>University of Wisconsin-Madison</i>	2023
	ECOL711 Multivariate Analysis of Ecological and Community Data Causal Inference and its application in analyzing and modelling GHG emissions	
	Teaching assistant, <i>Wuhan University</i>	2017
	Principles & Applications of Remote Sensing	
	Teaching assistant, <i>Wuhan University</i>	2017
	Advanced Geographic Information Technology	

SERVICE

Editorship & Review:

Reviewer:

Proposals: NASA Postdoctoral Program (NPP)

Conferences: *ICLR* (top-tier conference in AI and machine learning).

Journal papers: reviewed 40+ papers in 27 journals, e.g., *Nature Communications*, *Global Change Biology*, *Agricultural and Forest Meteorology*, *Communications Earth & Environment*, *Earth System Science Data*, *Environmental Research Letters*, *Journal of Geophysical Research-Atmospheres*, *Journal of Geophysical Research-Machine Learning and Computation*, *International Journal of Geographical Information Science*, *Atmospheric Environment*, *Environmental Research Communications*, *Environmental Research: Climate*, *Remote Sensing*.

Guest Editor:

- Remote Sensing
- Geomatics, Natural Hazards and Risk

Professional Service:

Workshop organizer:

- Bridging the Gap-Flux Data Meets Land Surface Models, 2025
- AmeriFlux Early Career Networking Workshop, 2024

Conference Session Convenor/Chair:

- AGU *Warming-Induced Emissions: Integrating Models and Observations to Advance Understanding of GHG Fluxes of Natural Systems and Climate Feedbacks*, 2025
- EGU AS5/BG9: *Machine learning for Carbon Cycle Research*, 2025
- AGU B41M & B43D: *The Global Methane Budget and Advancing Understanding of Wetland Greenhouse Gas Emissions*, 2024

Committee member:

- FLUXNET-Early Career Scientist Network, 2024-present

Judge:

- AGU Outstanding Student Presentation Awards (OSPA) programs, 2022-present
- AMS student presentation competitions, 2023-present
